ABREVIACIONES

GENERAL	
Ø	Diámetro Ø
L	Longitud
W	Vatios
V	Voltaje
lm	Lúmenes
HI	Alta potencia LED
STD	Potencia estándar LED
CK	Kit de tapas
CB	Caja de conexión
INSTALACIÓN	
MOD. CEIL.	Techo modular
TR	Empotrado sin marco
SR	Superficie
PN	Colgante
TK	Proyectores de carril
RF	Empotrado con marco
WS	Apliques

ACABADOS	
W	Blanco
BK	Negro
BW	Blanco y negro
AG	Anodizado gris
SL	Pan de Plata
GL	Pan de Oro
G	Oro
GY	Gris
AQ	Aqua
BL	Azul
FL	Flamenco
GR	Verde
OR	Naranja
PI	Rosa
RE	Rojo
CH	Cromado
SA	Aluminio rallado
SBA	Aluminio negro rallado
PA	Aluminio pulido
SN	Níquel satinado
CL	Pan de cobre
COLORS	Negro, anodizado gris, aqua, azul, flamenco, verde, naranja, rosa y rojo.
DIFUSOR	
OP	Opal
MP	Micro prismático

REFLECTOR	
D18	18º
D24	24º
D26	26º
D28	28º
D29	29º
D30	30º
D38	38º
D40	40º
D43	43º
D54	54º
D60	60º
TEMPERATURA DE COLOR	
27K	2700K
3K	3000K
4K	4000K
TIPO DE REGULACIÓN	
D1	Regulación 1..10V
DA	Regulación DALI
PU	Regulación mediante pulsador
PC	Corte de fase

ABBREVIATIONS

GENERAL	
Ø	Diameter Ø
L	Length
W	Wattage
V	Voltage
lm	Lumens
HI	High power LED
STD	Standard power LED
CK	Cover kit
CB	Connection base
INSTALLATION	
MOD. CEIL.	Modular ceiling
TR	Trimless
SR	Surface
PN	Pendant
TK	Track lights
RF	Recessed with frame
WS	Wall surface

FINISH	
W	White
BK	Black
BW	Black and white
AG	Anodized gray
SL	Silver Leaf
GL	Gold Leaf
G	Gold
GY	Gray
AQ	Aqua
BL	Blue
FL	Flamingo
GR	Green
OR	Orange
PI	Pink
RE	Red
CH	Chrome
SA	Striped aluminum
SBA	Striped black aluminum
PA	Polished aluminum
SN	Satin niquel
CL	Copper leaf
COLORS	Black, anodized gray, aqua, blue, flamingo, green, orange, pink and red.
OPTIC COVER	
OP	Opal
MP	Microprismatic

REFLECTOR	
D18	18º
D24	24º
D26	26º
D28	28º
D29	29º
D30	30º
D38	38º
D40	40º
D43	43º
D54	54º
D60	60º
COLOR TEMPERATURE	
27K	2700K
3K	3000K
4K	4000K
CONTROL	
D1	Dimmable 1..10V
DA	Dimmable DALI
PU	Dimmable Push
PC	Dimmable Phase Cut

CONFIGURACIÓN DE REFERENCIAS

1 ¡Elige el modelo!

2 Referencia completa

Está situada en cada modelo. Según sus características puede acompañarse de dos cifras más.

3 Tipo de potencia

Elegir entre HI o STD.

Si es necesario

4 Tipo de instalación

Si es necesario indicar la instalación, se utilizarán las abreviaciones. Consultar en el modelo y en abreviaciones.

Si es necesario

5 Acabados

Si es necesario indicar el acabado elegido. Consultar en el modelo y en abreviaciones.

Si es necesario

6 Difusor

Si el modelo lleva difusor o reflector es obligatorio, indicar el elegido en la referencia. Consultar en el modelo y en abreviaciones.

Si es necesario

7 Reflector

Si el modelo lleva difusor o reflector es obligatorio, indicar el elegido en la referencia. Consultar en el modelo y en abreviaciones.

Si es necesario

8 Temperatura de color

Consultar en el modelo y en abreviaciones.

Si es necesario

9 Tipo de regulación

Cuando se desea regulación:

1..10V .D1  
DALI .DA  
Push .PU  
Corte de fase .PC

Si se desea y es posible

Si no se desea regulación no se indica nada

Ejemplo

ALABAMA  
10158

10158.45  
Referencia del modelo: 10158 con la  
característica 45: Ø450 mm.

10158.45.HI  
Potencia elegida: Alta.

10158.45.HI.PN  
Instalación elegida: Colgante.

10158.45.HI.PN.W  
Acabado elegido: Blanco

10158.45.HI.PN.W.MP  
Difusor elegido: Microprismático.

-

10158.45.HI.PN.W.MP.4K  
Temperatura elegida: 4000K

10158.45.HI.PN.W.MP.4K.PU  
Regulación elegida: Pulsador.

○ Para mayor información sobre cómo configurar la luminaria, consultar la página web: [www.bpmlighting.com](http://www.bpmlighting.com)

REFERENCE CONFIGURATION

		Example
1	Choose a model!	ALABAMA 10158
2	Complete reference  Appears together with the model. According to its features may be accompanied by two digits.	10158.45 Reference of the model: 10158 with the characteristic 45: Ø450 mm.
3	Power option  Choose between HI or STD.	10158.45.HI Chosen Power: High.
4	Installation  If necessary indicate the installation, abbreviations will be used. Refer to the model and abbreviations.	10158.45.HI.PN Chosen installation: Pendant.
5	Finish  If necessary, indicate the chosen finish. Refer to the model and abbreviations.	10158.45.HI.PN.W Chosen finish: White
6	Difusor  If the model has optic cover or reflector, the chosen one must be indicated in the reference. Refer to the model and abbreviations.	10158.45.HI.PN.W.MP Chosen optic cover: Microprismatic.
7	Reflector  If the model has reflector and there are no optic cover, the angle must be indicated in the reference. Refer to the model and abbreviations.	-
8	Color temperature  Refer to the model and abbreviations.	10158.45.HI.PN.W.MP.4K Chosen color temperature: 4000K
9	Dimmable options  When regulation is desired: 1..10V .D1 DALI .DA Push .PU Corte de fase .PC  When regulation is not desired nothing is required	10158.45.HI.PN.W.MP.4K.PU Chosen driver dimmable: Push.

For better configuration refer to our website: [www.bpmlighting.com](http://www.bpmlighting.com)

## CLASS

### CLASE I / CLASS I

Estos aparatos deben tener su chasis conectado a una toma de tierra por un conductor (de color amarillo/verde en la mayoría de los países y verde en los Estados Unidos, Canadá y Japón).

Un fallo en el aparato que hace que un conductor con tensión entre contacto con la carcasa lo que causará un flujo de corriente en el conductor de tierra. Esta corriente debe pasar a través de un dispositivo de protección contra sobrecorriente (fusible o interruptor magnetotérmico) o un interruptor diferencial (interruptor de circuito por falla de tierra), que cortará el suministro de electricidad en el aparato.

*These appliances must have their chassis connected to electrical earth (US: ground) by an earth conductor (coloured green/yellow in most countries, green in the U.S., Canada and Japan). A fault in the appliance which causes a live conductor to contact the casing will cause a current to flow in the earth conductor. This current should trip either an overcurrent device (fuse or circuit breaker (CB)) or a residual-current device (RCD) also named as residual current circuit breaker (RCCB), or (ground fault circuit interrupter (GFCI)) or also, residual current operated circuit-breaker with integral overcurrent protection (RCBO). which will cut off the supply of electricity to the appliance.*

### CLASE II / CLASS II

Dispositivo de Clase II o aparato con doble aislamiento eléctrico es uno que ha sido diseñado de tal forma que no requiere una toma a tierra de seguridad eléctrica.

El requisito básico es que un fallo simple no puede dar lugar a tensiones peligrosas que se exponga lo que podría causar una descarga eléctrica y que esto se logra sin depender de una caja metálica conectada a tierra. Esto se consigue normalmente por que tiene dos capas de material aislante que rodea las partes con tensiones peligrosas o utilizando un aislamiento reforzado.

En Europa, un aparato de doble aislamiento deben ser etiquetados como clase II, doble aislamiento y llevan el símbolo de doble aislamiento (un cuadrado dentro de otro cuadrado).

*A Class II or double insulated electrical appliance is one which has been designed in such a way that it does not require a safety connection to electrical earth (US: ground).*

*The basic requirement is that no single failure can result in dangerous voltage becoming exposed so that it might cause an electric shock and that this is achieved without relying on an earthed metal casing. This is usually achieved at least in part by having two layers of insulating material surrounding live parts or by using reinforced insulation.*

*In Europe, a double insulated appliance must be labelled Class II, double insulated, or bear the double insulation symbol (a square inside another square).*

### CLASE III / CLASS III

Un aparato de Clase III está diseñado para ser alimentado por una fuente de alimentación SELV (por sus siglas en inglés: "Separated or Safety Extra-Low Voltage"). La tensión de una fuente de SELV es lo suficientemente bajo para que, en condiciones normales, una persona puede entrar en contacto con ella sin correr el riesgo de descarga eléctrica. Por tanto no es necesario incorporar la seguridad que llevan los aparatos de Clase I y Clase II. Para el cumplimiento de los dispositivos médicos la Clase III no se considera suficiente la protección.

*A Class III appliance is designed to be supplied from a separated/safety extra-low voltage (SELV) power source. The voltage from a SELV supply is low enough that under normal conditions a person can safely come into contact with it without risk of electrical shock. The extra safety features built into Class I and Class II appliances are therefore not required. For medical devices compliance with Class III is not considered sufficient protection.*

IP

Primera cifra	Grado de protección: Protección contra cuerpos extraños	
	Descripción abreviada	Tipo de protección proporcionada por la envolvente
0	No protegida	Sin protección particular
1	Protegida contra los cuerpos sólidos de más de 50 mm	Una gran superficie del cuerpo humano tal como la mano (pero no protegida contra una penetración deliberada). Cuerpos sólidos con un diámetro superior a 50 mm
2	Protegida contra los cuerpos sólidos de más de 12 mm	Los dedos u objetos análogos que no excedan una longitud de 80 mm. Cuerpos sólidos con un diámetro superior a 12 mm
3	Protegida contra cuerpos sólidos de más de 2,5 mm	Herramientas, alambres, etc., con diámetro o espesor superior a 2,5 mm. Cuerpos sólidos con un diámetro superior a 2,5 mm
4	Protegida contra cuerpos sólidos de más de 1,0 mm	Alambres o cintas con un espesor superior a 1,0 mm. Cuerpos sólidos con un diámetro superior a 1,0 mm
5	Protegida contra la penetración de polvo	No se impide totalmente la entrada de polvo, pero sin que el polvo entre en cantidad suficiente que llegue a perjudicar el funcionamiento satisfactorio del equipo
6	Totalmente estanco al polvo	Ninguna entrada de polvo

Segunda cifra	Grado de protección: Protección contra el agua	
	Descripción abreviada	Tipo de protección proporcionada por la envolvente
0	No protegida	Sin protección particular
1	Protegida contra la caída vertical de gotas de agua	La caída vertical de gotas de agua no deben tener efectos perjudiciales
2	Protegida contra la caída de gotas de agua con una inclinación máxima de 15º	Las caídas verticales de gotas de agua no deben tener efectos perjudiciales cuando la envolvente está inclinada hasta 15º con respecto a la posición normal
3	Protegida contra la lluvia fina (pulverizada)	El agua pulverizada de lluvia que cae en una dirección que forma un ángulo de hasta 60º con la vertical, no debe tener efectos perjudiciales
4	Protegida contra las proyecciones de agua	El agua proyectada en todas las direcciones sobre la envolvente no debe tener efectos perjudiciales
5	Protegida contra los chorros de agua	El agua proyectada con la ayuda de una boquilla, en todas las direcciones, sobre la envolvente, no debe tener efectos perjudiciales
6	Protegida contra mar gruesa	Con mar gruesa, o bajo los efectos de potentes chorros, el agua no debe penetrar en la envolvente en cantidades perjudiciales
7	Protegida contra los efectos de la inmersión	Cuando se sumerge la envolvente en agua en unas condiciones de presión y con una duración determinada, no debe ser posible la penetración de agua en el interior de la envolvente en cantidades perjudiciales
8	Protegida contra la inmersión prolongada	El equipo es adecuado para la inmersión prolongada en agua bajo las condiciones especificadas por el fabricante. NOTA: Esto significa normalmente que el equipo es rigurosamente estanco. No obstante, para ciertos tipos de equipos, esto puede significar que el agua pueda penetrar pero solo de manera que no produzca efectos perjudiciales.

First Digit	Protection Grade: Protection against solid bodies penetration	
	Short Description	Achieved protection for enclosure
0	No protection	No particular protection
1	Protected against solids of a size bigger than 50 mm	A large surface of the human body such as the hand (but not protected against deliberate penetration). Solids of a size bigger than 50 mm
2	Protected against solids of a size bigger than 12 mm	Fingers or similar objects not exceeding a length of 80 mm. Solids of a size bigger than 12 mm
3	Protected against solids of a size bigger than 2,5 mm	Tools, wires, etc. with a diameter or thickness greater than 2,5 mm. Solids of a size bigger to 2,5 mm
4	Protected against solids of a size bigger than 1,0 mm	Wires or strips with a thickness greater than 1.0 mm. Solids with a size bigger to 1.0 mm
5	Protected against dust	Does not completely prevents the ingress of dust, but sufficient to reach satisfactory operation of the equipment
6	Full protected against dust	No ingress of dust

Second Digit	Protection Grade: Protection against penetration by water	
	Short Description	Achieved protection for enclosure
0	No protection	No particular protection
1	Protected against drops of water falling vertically	Vertically falling water drops must have no harmful effect
2	Protected against drops of water falling at a maximum inclination of 15º	Vertical falling drops of water should not have adverse effects when the enclosure is inclined to 15º from the normal position
3	Protected against direct rain	The spray of rain falling in a direction at an angle of 60º with the vertical shall have no harmful effects
4	Protected against splashes of water	Water projected in all directions on the enclosure shall have no harmful effects
5	Protected against jets of water	Water projected with the help of a nozzle, in all directions, on the enclosure, must not have harmful effects
6	Protected against high tide	With heavy tide, or under the influence of powerful jets, water must not enter the enclosure in harmful quantities
7	Protected against plunging effects	When the enclosure is installed under water under pressure conditions and with a certain duration, water penetration should not be possible inside the enclosure in harmful amounts
8	Protected against long immersion	The equipment is suitable for prolonged immersion in water under conditions specified by the manufacturer. NOTE: This usually means that the product is thoroughly sealed. However, for certain types of equipment, it can mean that water can enter but only so as not to cause harmful effects.

## GENERAL CONDITIONS

Todos los pedidos deberán ser formulados a BPM Iluminación, S.L. por escrito vía fax o e-mail, quedando aceptadas por el comprador las condiciones escritas a continuación.

La mercancía suministrada por BPM Lighting estará sujeta a los términos de aceptación internacionales de comercio, esto es, a los Incoterms acordados en la venta entre BPM Lighting y el comprador en la formalización del pedido.

Los plazos de entrega son aproximados y sin compromiso, BPM Lighting no aceptará demandas por daños y perjuicios por la demora de la entrega.

### ANULACIÓN DE PEDIDOS

Las anulaciones de pedidos deberán hacerse por escrito y notificarse a BPM Lighting vía fax o e-mail. En caso de que el pedido ya se hubiese enviado, deberán solicitar la devolución del mismo, acogiéndose a las condiciones detalladas en el siguiente apartado.

### DEVOLUCIÓN DE MERCANCÍA

Solo se aceptarán devoluciones que hayan sido autorizadas por BPM Lighting, dicha solicitud deben hacerlas por escrito vía fax o e-mail.

### CONDICIONES

- En la solicitud se debe hacer constar el motivo de la devolución o anulación, cantidad, estado del material, fecha de compra, nº de factura.
- A todas las devoluciones se les aplicará una depreciación desde el 5% hasta el 25% según el tiempo transcurrido desde la venta y/o el motivo de la devolución.
- El material debe ser devuelto en su embalaje original y en buen estado de conservación.
- Si fuera autorizada, BPM Iluminación, S.L. deberá recibirla en un plazo máximo de 10 días.
- La devolución se efectuará a portes pagados a cuenta del cliente.
- No se admitirán devoluciones de mercancía si el material ha sido servido con anterioridad a 60 días -fecha factura-.
- No se admitirán anulaciones o devoluciones de material fabricado expresamente para el cliente (modelo o colores fuera de catálogo u otros), así como pedidos realizados que ya estuvieran en proceso de fabricación.
- Impuestos no incluidos en tarifa.

En caso de discrepancia entre el comprador y BPM Lighting, ambas partes se someterán expresamente a los Juzgados y Tribunales de Alicante.

Todos los datos están actualizados el día de la impresión, sin embargo, debido al continuo desarrollo y mejora de los productos BPM Lighting se reserva el derecho de modificarlos sin previo aviso.

La tarifa no representa un elemento contractual

*All orders must be submitted to BPM Iluminación, S.L. in writing via fax or e-mail, which implies the buyer agree for conditions stated below. The merchandise supplied by BPM Lighting is subject to the acceptance of international trade terms, that is, to the Incoterms agreed between BPM Lighting and the buyer during the formalization of an order. Delivery times are approximate and non-binding, BPM Lighting will not accept claims for possible harmful effects of delays in delivery.*

### CANCELLATION OF ORDERS

*Order cancellations must be in writing and communicated to BPM Lighting by fax or e-mail. If the order had already been sent, the return of the same shall be requested complying with the conditions detailed in the following section.*

### RETURN OF MERCHANDISE

*Only returns authorized by BPM Lighting will be accepted, the request should be made by writing via fax or e-mail.*

### CONDITIONS

- *The request must state the reason for a return or cancellation, condition of the material, amount, date of purchase, invoice number.*
- *In all refunds will be applied a depreciation from 5% to 25% depending on the time elapsed since the sale and / or the reason for the return.*
- *The goods must be returned in its original packaging and in good conditions.*
- *If authorized, BPM Lighting should receive it in maximum 10 days.*
- *Such returns will be shipped at the expense of the customer.*
- *No merchandise returns will be accepted if the material has been served previously to 60 days of the billing date.*
- *Cancellations or returns of material manufactured specifically for the client (non-standard models, colors or others), as well as orders that are already in manufacturing process, will not be accepted.*
- *Taxes are not included in the pricelist.*

*In case of discrepancy between the buyer and BPM Lighting, both parties are expressly subject to the Courts of Alicante.*

*All data provided in the following document is updated on the day of printing, however, due to continuous development and improvement of our products, BPM Lighting reserves the right to modify the data without prior notice.*

*The price list does not represent a contractual agreement.*
